Dear Langar and Barnstone Community Member,

Langar School Council, in co-operation with Lucy Paine and James Barlow, have been looking into the road safety issues that we have in the villages.

You may have passed us many of us in the morning as we walk or cycle to school. Lots of us want to travel to school like this as it is good for our health and the environment. It is also good for us to start to do this independently as we get older and prepare for secondary school.

However, lots of us worry about getting across Musters Road; the crossroads between Barnstone and Langar. We know that lots of residents and parents worry about this crossing too.

The local councillors, Neil Clarke and Tina Comebellack, share our concerns about the junction and they are really keen to support finding a way to make the crossing and getting to school safer. However, to make things happen we need to collect some information, in part so that whatever might be put in place meets the needs of us all.

So, whether or not you have a school age child, we would really value your answers to a few short questions. Please either reply by e-mail (lucypaine@gmail.com) or by dropping your completed questionnaire off at Langar School where there will be a box for them.

Many thanks!

Lucy Paine and The School Council
